

# Thinking about changing to wind energy?

**GP-CAN—Garrett Park Conservation Action Network—can help! Bring your electric bill to the PO on Saturday, October 1, 9:00-noon**

Have you seen the little blue and green signs sprinkled around town saying “**I’m a clean energy home**”? Those Garrett Parkers have changed to wind power. You can too!

On October 1, bring your electric bill to the PO, and members of GP-CAN will lay out the different wind energy alternatives for our area, the current rates, and help you to compare those programs to your Pepco rates. If you decide to sign up, a GP-CAN member can help you do it on the spot or show you how to do it on your own computer. It just takes a few minutes once you’re familiar with the websites.

If you have questions, please contact Joanne Schmader or Karen Anderson
